Taupe | S011

Moss | S016

MAINTENANCE

Crochet PP rope has been designed to be as low maintenance as possible. It is recommended to use a fabric and upholstery protector to give optimal stain resistance.

In order to spot clean the rope, do apply a mist of a soapy water solution with a spray bottle and then work the solution into the rope with a soft cloth by blotting or using light pressure and short strokes. Do not abrade the rope with excessive scrubbing or by using a hard brush. Rinse the solution thoroughly and then blot excess moisture from the rope using a soft cloth and allow to air-dry.

Never use a highpressure hose on PP rope and wash only.

We recommend to place the furniture indoors during winter.

Cigarette ashes or any sparks are to be avoided at any time as it might not only damage the outer, but also the inner cover.

GROOVE COLLECTION / by Alain Gilles

ABOUT

These unique side tables in marble and oak were designed by Brussels-based designer Alain Gilles. They are designed to interact perfectly with each other as they are available in different sizes and materials. Thanks to the graphic 'grooves' in the marble or wooden top, the tables have been given a specific alignment and direction, which allows to create a dialogue between the lines, heights and materials of the tables. By either combining different sizes in the same material for a subtle result, or by mixing and matching table tops in different materials and finishes for a more contrasting combination, you can create a table set that is in perfect harmony with your own interior and style.

- Frame: thick folded metal sheets
- Table top: marble or oak | golden grooves available on marble tops

- Small | CT023: 40 dia x 37 h
